An important role that an Inspector General (IG) plays is the identification each year of the most significant management and performance challenges facing a government agency, and the agency’s progress in addressing these challenges.

The last Top Management Challenges Report (TMC), issued in November 2020, identified 8 challenges facing the Commission:

• OIG developed and issued a 2-year Audit Plan for Fiscal Years 2020 and 2021 of the Commission’s programs and operations.

• The OIG audit coverage is designed on risk-based factors surrounding the AbilityOne Program functions, operations, major activities, and program priorities and challenges.

• An audit is an independent and objective review, assessing whether resources are allocated efficiently, funds spent properly, Commission goals are achieved, and applicable laws, policies, and regulations are followed.
